

Classroom Website Development 1 CDE Credit

8 weeks, Wednesdays, 4:00PM to 6:00PM

16 hrs instruction - Project Based Learning

Starting January 22 - Ending March 12, 2003

Room 402 Cañon City High School

This class is designed to give you all the basic skills necessary to produce your own classroom website using FrontPage 2000 software. These web sites can be published to free or low cost Internet service providers or the site can be placed on CD-ROM for distribution to students and parents. This class is centered around developing your skills. You will produce a working website using information collected from your current classes.

Pre-requisite skills needed: already proficient at using the Internet to find information you need; already proficient with Microsoft Word; able to operate an electronic camera; have some understanding of graphic formats such as JPG, PIC and TIF; you have made simple PowerPoint shows.

Contact the instructor, Mike Geesaman, if you have questions.

This class size is limited to 16 students.

Register at the Central Office by noon on 01-22-03

\$25 fee for in-district; \$50 for out-of-district

Adams State College Credit is not currently available for this offering.
