

Classroom Website Development Class

Teachers need support in developing a classroom website to help promote, motivate and highlight student achievements in their class. The sites can also expand the instructional day by giving wide spread access to common worksheets and skill drills. Parents, uncles, aunts, grandparents, teachers, administrators and friends easily visit these sites to get a good view of what is happening in the classroom.

State Standards Highlighted For Justification

Performance-Based Standards for Colorado Teachers

Standard Seven: Knowledge of Technology: The teacher is skilled in technology and is knowledgeable about using technology to support instruction and enhance student learning.

The teacher has demonstrated the ability to:

7.1 Apply technology to the delivery of standards-based instruction.

7.2 Use technology to increase student achievement.

7.3 Utilize technology to manage and communicate information.

7.4 Apply technology to data-driven assessments of learning.

7.5 Instruct students in basic technology skills.

Other Related Performance Standards

Standard Five: Knowledge of Classroom and Instructional Management : The teacher is knowledgeable about classroom practice in order to successfully manage time, communications, and record keeping procedures that will support and enhance student learning.

The teacher has demonstrated the ability to

5.8 Communicate with parents and guardians effectively in order to involve them as participants and partners in student learning.

5.9 Communicate a variety of assessment results, and their implications to students, parents, guardians, professionals, administrators, and the community.

5.6 Work in cooperation with library media and other resource specialists in providing student instruction on how to access, retrieve, analyze, synthesize and evaluate information, and integrate these information
